DETAILED ACTION

This office action is in response to the amendment of August 24, 2004. In making the below rejections the examiner has considered and addressed each of the applicant's arguments.

After further consideration of claim 9 and the applicant's remarks the examiner agrees there is proper antecedent basis for "said third chamber". Therefore the rejection under 35 USC 112, 2nd paragraph has been withdrawn.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 7 and 8 are rejected under 35 U.S.C. 102(b) as being anticipated by Murata as set forth in the previous office action.

Allowable Subject Matter

Claims 2-4, 6 and 12-17 are allowed.

Claims 9-11 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Response to Arguments

Applicant's arguments filed August 24, 2004 have been fully considered but they are not persuasive. The applicant argues that in the Murata device the pump chambers are not driven in phase with each other. After further consideration the examiner agrees. The applicant's arguments have overcome the rejections with regards to claims 2 and 16 and the claims which depend from them. However, with regards to claims 7 and 8, there is no limitation of the pump chambers operating in phase with one another, Therefore, Murata anticipates claims 7 and 8 and the rejection with respect to these two claims has been maintained.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any

extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
